Mr. Tony Zidar
CEO/ Consultant
American Foundation Specialist
11011 W. Forest Home Avenue
Hales corners, WI 53130

Dear Tony-

We want to let you know how extremely pleased we are with the job American did to restore our basement walls to their original and proper position and with the installation of glass block windows. The team of men working on our project (August 10-11) were awesome! We have never seen a crew work so hard and so fast and as a real team as these guys did. They were polite, too! How they completed this work in two days is beyond us. We thought it would have taken much longer when we saw the amount of work that was involved.

Lyle was just a pleasure to work with too. He was truly concerned about our need and what needed to be done. He is real, he knows "his stuff" and he is someone we trusted with no question (and fun too!). He was here not only to oversee what was going on, but , but he was right in there working, cleaning and doing whatever it took to get our project done and make us very satisfied customers. We now have such a sense of security knowing that our basement walls are sturdy and strong. Even the Caledonia inspector was impressed with the work that your men did.

Our most sincere thanks to everyone at American – from the people in the office, Lyle your crew, and you- trustworthy, hardworking people who did an outstanding job and that's the American way- (no pun intended).

Sincerely,

Robert + Christina

Robert and Christina Emmrich-
